COPPER ORE SOON TO BE CALLED FOR

Tintic Smelter Getting Ready to Handle Grand Central-Victoria Ores.

MEANS MORE MINERS WILL BE EMPLOYED

Good Bundle of Mining News Fresh From Great Camp of Utah.

Special to The Tribune

EUREKA, Utah, April 5 .- At the Tintic smelter a clean-up of the copper ore is now being made, which, when completed, will enable the receiving of copper ores from the Victoria and Grand Central mines and other copper producers of the district. This will mean employment for many of the idle men now here awaiting the opening of the two great properties on the Mammoth side.

The Schwab Mining company has been incorporated, owning the following claims located in the eastern end

been incorporated, owning the following claims located in the eastern end of the district. Agnes and Agnes Nos. I to 6 inclusive, East Point Nos. 7 and 8. New Idea and New Idea Nos. I, 2 and 3. The capital stock of the company is \$100,000, and the shares are of the par value of 10 cents each. The offices of the company will be located at Provo. Development work will at once be commenced on the claims. The officers of the company are well known in mining circles, and are: President, Samuel Schwab, secretary and treasurer, J. C. Jex. The directors are John Roundy and Samuel Brockbank.

Master Mechanic T. B. Sullivan is hurrying up the work of installing the new machinery at the East Tintic Development company's property, and expects to have the plant in active operation in about ten days or two weeks. A pipe line is being laid to the spring owned by John Bestlemeyer, and an abundant supply of water will be obtained for the mine. An electric light plant, with the capacity of fifty lights, will be installed at once.

The Eureka Mining company was organized this week by local people for the purpose of developing six claims located in East Tintic near the Schwab and Iron Hat properties. One hundred thousand shares of the company's stock have already been sold. The officers of the sompany are Robert Brown, president; George A. Udall, vice president; Ralph A. Badger, secretary, James Chipman, treasurer, and these, with John S. Smith form the directorate.

The Gray Rock Mining company was formed here this week for the purpose of operating ten claims located in the East end, and in a few days will hold a meeting and elect a set of officers, after which work of developing the ground will be commenced.

During the past week C. Fred Kratzer of Wallace, Ida. was in Eureka and landed an ontion on enough of the stock of Zuma Mining company to give the syndicate which he represents control of the affairs of the company. The price paid for the stock is placed at 15 cents per share 213,000 of which is treasury stock will give the rectors will continue close to manage select whom they close to manage the property. Power has been pro-

select whom they chose to manage the property. Power has been procured from the Telluride Power company for operating the electric hoist, and everything will be humming in a short time. The property of the company consists of six claims, four patented and two unpatented, located in the center of the properties in East Tiutic, which are at present attracting the undivided attention of the mining men and speculators of Utah.

The Tintic Volcanic Mining company, which takes over the Volcanic mining claims, Nos. 1 to 5, inclusive, located in this district, filed articles of incorporation this week. The capital stock of the company is \$100,000, divided into 1,000,000 shares, at the par value of 10 cents each. The treasury stock is \$400,000 shares, which will be disposed of to do a large amount of development work and purchase a hoisting plant and necessary machinery. The men in charge of the affairs of the company are: President, R. A. Barney; vice president, Nick Comes, secretary and are: President, R. A. Barney; vice president, Nick Comes; secretary and treasurer, E. H. McBeth, and these, with F. Fishner and John Fishner, make

up the board.

The Antelope Mining company has been incorporated for the purpose of taking over and developing the Antelope group of three claims, located in this district. The capital stock is \$50.000, at 5 cents per share. The officials of the company are John D. Dixon, president; William D. Dixon, vice president; Arnold Dixon, secretary trees. president; William D. Dixon, vice president; Arnold Dixon secretary-treasurer, and James E. Lunt and Arthur N. Taylor directors. Operations on the ground will be begun shortly.

Manager Frank Thornberg of the North Cliff mine, located near Diamond, will begin to send ore to the Tintic smelter in a few days now the reads are in good condition for hand.

up the board.

Indic smeller in a rew days now the roads are in good condition for hauling. The prospects for this new property are very bright.

E. R. Higgenson has taken a lease on the Laclede property near Silver (fity, and is already preparing a lot of good-looking mineral for shipment. The Iron King Mining company is making amplication for natery on the

MAJESTIC STOCK IS LISTED ON EXCHANGE

Big Beaver County Company Will Have Stock Called This Morning.

The Majestic Mines company made application to the Salt Lake Stock and Mining exchange Monday for the purpose of listing its stock on the regular board, which application was reported favorably, and the stock will be called for the first time this morning. The application sets forth that the company is capitalized for 1,000,000 company is capitalized for 1,000,000 shares of stock, par value \$5 cach. In the treasury are 198,152 shares of stock, making the amount issued 801, 848 shares. The company states that it has no debts, that there is no portion of its property bonded, and that there is the sum of \$30,000 in the treasury.

there is the sum of \$30,000 in the treasury.

In Beaver county the company claims ownership over 120 claims, twenty of which are patented. Among the groups mentioned are the O. K., Hickory, Harrington Hickory, Vicksburg and Hoosier Boy. On these properties there are eighteen shafts and 30,000 feet of tunned, winze and raise work have been done. Ten men are employed at present. The application states that no estimate at present is available relative to ores blocked out, but states that during the past five years \$500,000 worth of ores have been marketed. The oresearry gold, copper, silver and lead. The properties are well equipped with machinery, and the company owns the smelter, on which an option or bond has been taken by F. Augustus Heinze.

OPOHONGA IN VERY GOOD COPPER ORE

John Hatfield, one of the officials of the Opohonga Mining company of the Tintic district, was in the city from his Provoucadquarters on Monday. Mr. Hatfield reports the Opohonga management engaged in the pleasant task of drifting on shipping grades of copper ore on the 700-foot level, the drifts proceeding both ways in fine ore. The company began development work via the 200-foot level of the Black Jack workings, which brought the connecting drift into the Opohonga at the 100 level. Much of this ore is being extracted, and Mr. Hatfield states it appears as if the company would develop a fine shipping proposition within a short time.

Nevadas in San Francisco.

At a meeting of the Great Easter Mining company held here this week

ing. The prospects for this new property are very bright.

E. R. Higgenson has taken a lease on the Laclede property near Silver (Sty, and is already preparing a lot of good-looking mineral for shipment. The Iron King Mining company is making application for patent on the Angle Lode Mining claim, located near its ground in East Tintie.

A survey of the Wicklow ground in East Tintie is being made for the purpose of securing a patent. The capital stock of the company has been increased to 1,000,000 shares, and treasury

pose of securing a patient. The eapital stock of the company has been increased to 1,000,000 shares, and treasury stock will be disposed of, so work can be commenced immediately.

Rails, piping, etc., bave been received at the Eagle & Blue Bell mine for the purpose of extending the drift on the 500 level of that property into the King William ground, which is being worked through this mine. It will require 400 feet of drifting to reach the King William property from the 500 level of the Eagle & Blue Bell, and the King William company will still continue work from the 500 level of the Eagle & Blue Bell, whose property is improving daily under the management of Superintendent William Owens.

COLUMBUS CON. THE

Columbus Consolidated stock was the main feature Monday of the trading on the local exchange, the stock seemingly being headed for oldtime levels by virtue of much better ore reserves than th mine has ever shown at any time of its history. The tendency generally yesterday was toward better prices, although no sensational advances outside of the Columbus stock were made. During the day 127,665 shares of stock passed hands, representing a market value of \$93.572.45. The following were the closing unlisted.

FEATURE ON MONDAY MAY DAY SELECTS SAME OFFICIALS

Annual Meeting on Monday Pro-duced No Change in Official Family.

COMPANY BOUND TO

Financial Statement Shows in Detail the Value of Ores Shipped.

No change was made Monday after noon at the annual stockholders' meeting of the May Day Mining company. The directors for the ensuing year will be John Dern, W. S. McCornick, James Chipman, M. P. Braffet and M. S. Nielson. These directors met immediately after the stockholders had completed their task, and John Dern was reelected president, James Chipman was again selected as vice president, Mr. McCornick will serve as treasurer and A. Reeves as secretary. The company at present is whipping out a greater amount of money than is required for running expenses, every effort being to sink to heretofore untouched depths, and to get the property in shape for a good-sized production when the prices of the metals reach a safer and more noon at the annual stockholders' meet-

a good-sized production when the prices of the metals reach a safer and more same level.

The financial report submitted for the scrutiny of the stockholders showed that during the year ending March 31, 1909, the company paid out the sum of \$44,000 in the form of dividends. The operating expenses for the year were \$86,410.91, leaving a balance in bank on the date mentioned of \$5974.72. The total receipts for the year amounted to \$136,385.63, including the cash balance on hand at the beginning of the year, amounting to \$9.084.11. The crude ore sales for the year were as follows:

Mr. West states that the motor cars to be used in the mine hereafter in place of mule and horse power have reached the property, and will be installed immediately. He also visited the South Columbus mine and reports it looking very good indeed. The man agement is driving a winze from the East No. 1 tunnel and this is breaking into sulphides with every indication of being in a permanent body of good ore.

SIX VERY FAVORABLE

SIX VERY FAVORABLE
FACTORS IN SITUATION

Still another factor making for recovery is the resumption of immigration. This class of citizens could well be spared during depression, but the demand which they create is indispensable to growth. Our exports for February show a large decrease from the previous year, as was expected, but the gain in imports, revealing the country's undiminished buying power, is a hopeful sign, so the heavy falling off in the trade balance is not the unfavorable feature it might be. It will be restored to normal proportions when our factories resume their normal scale of production. Still further, the outlook for winter wheat, at one time very dublicute, is much improved. As soon as the tariff is out of the way, this will take first rank as a market factor, and it is encouraging that its chances of exerting as favorable influence are improving. Railroad earnings, aiready large continue to gain, and there have recently been placed the first large orders of railroad equipment since the depression.

We have, then, these six favorable factors, viz. The gradual dispelling of the tariff uncertainty: the preparedness of the corporations for a greater volume of business, without much more new financing, the prospect of an early currency, the improvement in crop prospects, and the continued gain in railroad earnings.

Hayden Stone & Co.

HARRIS HAS NOT SOLD

HARRIS HAS NOT SOLD ALL LEASE INTEREST

In a letter to associates of this city in the Seven Troughs Florence or Harris lease of Seven Troughs. Ray D. Harris writes that the reports to the effect that he has sold completely out of the lease are incorrect. He has given an option on a large block of his stock to Minneapolis parties, but the deal has not been completely consummated yet, nor does Mr. Harris feel that he will be much the gainer in case the option is taken up. He reports the lease in magnificent condition, and says the whole camp is looking fine and that it never was busier, in spite of the general hedging of financial circles throughout the land.

IRON BLOSSOM IS LOOKING VERY GOOD

"As far as the Iron Blossom company has developed its resources, the mine looked extremely good," said Will J. Lawrence, who spent Sunday at the property in question. "It can say that for extent and richness, the ore looks as good to me as it did at any point in the Colorado or Sioux. I do not know any mere than the other fellow what will be the result of the change in the line to the south, that is a matter that depends, naturally, on future development work, but the mine certainly looks very well as far as the ore shoot has been opened.

COLUMBUS MINE NOW COMING TO DAYLIGHT

Present Resources Will Place Company Solidly on Its Feet Again.

"I believe that the new ore body encountered on the 400-foot level of the Columbus Cousolidated property MUCH BETTER DEPTH will not only bring the company out of its present financial troubles, but it should do more than that. The management has a magnificent resource,
and those in charge of the property
are doing everything in their power to
bring about as great an extraction of
ore as possible with a minimum of expense, 's said E. M. West, the wellknown broker, who, with Alex Jacobson,
Lorenzo Suow and several other Salt
Lakers, visited the mines last Sunday.

Good times again seem to have arrived for the Mammoth Mining company, and this yeteran ore shipper and dividend payer of the Tintic district may be tooked to soon for its usual sort of ore shipments. The company has entered into an ore contract with the United States Smelting, Refining and Mining company, the contract calling for all sorts of ore produced by the mine, and providing for the shipment of 200 tons daily. The Mammoth has many thousand tons of splendid ore now on the dumps and in the bins awaiting shipment, while the mine is fairly gorged with rock that needs nothing but this contract to bring it into the Salt Lake smelter mentioned. Thus, one hay one are the old properties backing into position again after having passed through over a year of patient waiting for a betterment, first, of the smelting facilities of Utah, and second, for an improvement in the prices of metals. The fact that the Mammoth has entered into this contract will bring great loy to stockholders, and to every one who sees in each similar action an indication that mining Utal is slowly but surely recovering from the hard times beginning with the financial panic and smelter decision of 1907.

INTERNATIONAL PLANS ON A VERY BIG SCAL

A decidedly encouraging item for mining Utah is the substantial advance made yesterday in the price of the metals for the current week. The local smelters during the week will pay \$4.10 per hundred pounds for lead, an advance of 10 cents per hundred; 51 cents an ounce for sliver received on Monday, and 12.7-18c a pound for copper. The sliver quotations cliange from day to day, but the first and last metals mentioned are determined for the week.

Stock Letters.

James A. Pollock & Co., bankers and brokers, 6 West Second South street, furnish the following, received over their private wire yesterday:

Hutton & Co.'s stock letter: New York—The fact of there being no decision in the commodity clause today was the chief factor in the strength in the general market. Confident buying by important interests continued in the best stocks and, in fact, many inactive issues were bought by the pools. The outlook seems favorable for a continuance of the upward trend.

The metal quotations for Monday, posted by McCornick & Co. were as follows: Silver, 51c; lead, \$4.19; copper, 12 7-16c.

WORK ON NEW 'CHANGE STARTS THIS MORNING

The work of tearing out eight rooms on the ground floor of the Atlas block to make one assembly room for the Utah stock and mining exchange will begin this morping. The greater part of the furniture for the new enterprise has been received, and C. W. Hartley stated Monday afternoon that 115 seats had been sold, while he expected to place between twenty and thirty more in Provo. Mr. Hartley states that the exchange means business, and will be ready for business in a short time.
